RRCA Championship Award Distribution Instructions

Please note that RRCA Championship awards (if provided by the RRCA) are independent of any awards the race gives to winners.

Also, RRCA award winners do not have to be a member of an RRCA club, nor do they have to be a resident of the state, region or country. RRCA Championships are all-comers competition unless previously stipulated by your RRCA State Rep for State Championship residency requirements.

RRCA awards for Overall Male & Female go to the first finisher regardless of age. Masters awards go to the fastest 40+.finisher Grand Masters awards go to the fastest finisher 50+. The only exception would be if the first overall winner(s) happens to be in the Masters or Grand Masters age categories. They would then win the RRCA Overall award and the next person in the respective age category would win RRCA Masters or Grand Masters. Likewise, if the first Masters finisher is also a Grand Master, they would win the Masters award, and the next Grand Master finisher would receive the Grand Masters award. Senior Grand Master awards go to the fastest 60+ finisher.

Another way of looking at this*:* Take the fastest finisher overall, Male and Female, ***regardless of age***, and give them the first overall award. Of all the remaining runners, take the first finisher 40 years or older (***regardless of age, as long as it is 40+***), and give them the Masters award. Of all remaining runners after this, take the first finisher 50 years or older, and give them the Grand Masters award.

Please ensure the timing company sets this up in their computers.
